## *Exhibition – Brook Meadow*

by Colin Brotherston

Emsworth Community Centre Friday  
29th March – Sunday 19th May

The first exhibition in the David Rudkin Room for 2024 describes the local nature reserve and haven for wildlife near Emsworth town centre. Brook Meadow is located between the River Ems in the west and Lumley Road in the east and many of the plants, insects, birds and animals that can be seen in the

meadow will be illustrated. The Brook Meadow Conservation Group was formed in 2000 by local residents to restore, protect and conserve the natural environment of the meadow for the benefit and quiet enjoyment of the general public. This exhibition will interest people of all ages and should not be missed.

Note this exhibition will not be available during the Emsworth Arts Trail weekends from April 27th to May 6th. See our home page for Museum Opening Times history.
